The Bonanza is kept on file at Dempsey & Stanley, Turk and Mason Streets, San Francisco.

Entered at the postoffice in Tonopah as second class matter.

## MAKE LIBERTY LOAN WORTH WHILE.

THREE billion dollars would not buy a bushel of wheat in a country in which there was not a bushel of wheat to buy. Without food money can not talk. It can not even stand up and walk.

Herbert Hoover has said, and rightly said: "Food will win this war." Food is the fundamental problem.

Our allies are dependent upon the United States for their food reserves. If we fail them they are lost. If we fail them when their vital need is for food, no contribution of funds, no gathering together of wealth will sustain them.

There is now in progress in this country a great experiment in applied democracy. An endeavor is being made to ascertain whether or not it is possible to unite the people as an organized force back of a food control program and unite them as a result of a popular appeal.

At the present time food administration in this country is in the hands of the people. The Food Pledge Household Enrollment Campaign, October 28 to November 4, represents an endeavor to bring about a popular, voluntary agreement regarding the steps the people as a whole should take in maintaining the food reserves, the vital necessity for the success of the allied cause in the world war.

The endeavors of the United States in connection with the war must be well rounded and balanced if they are to be effective. Without funds our government can not perform the task at hand; without food our allies cannot be sustained in their endeavors. An appeal to the American public has been made in behalf of the second Liberty Loan of 1917. The loan will be oversubscribed. It becomes the duty of our people, however, to see to it that the funds contributed by patriotic citizens do not go bogging in the market for foodstuffs that do not exist.

The Food Pledge Week Campaign and the campaign being made on behalf of the Liberty Loan are not rival endeavors; they are each part of a program, every feature of which is vital at this time. If we conserve our food supplies then all the other needs of our allies can be met. If we fail to conserve our food supplies then all our financial endeavors in behalf of our allies may prove in vain.

## RAILROADS TO THE RESCUE.

THE way in which the railroads of the country have been able to make their facilities take care of the sudden increase in business brought on by the war is shown in a report just made by the western lines to the general railroads' war board. Loading more goods into cars, putting more cars into trains and getting the trains over the road faster have enabled them to take care of an increase in traffic of over a fifth, notwithstanding the fact that they have not been able to get new cars or engines.

Co-operation on the part of shippers is in a large measure responsible for this efficiency, and the gratifying results have been possible only because shippers and carriers have been working together in the common cause of helping the government win the war.

## OUTLOOK FOR USEFUL METALS.

DURING the past several years the useful metals have been in price as erratic as a bumblebee in flight; rising, falling, poised in air, darting to and fro. Quicksilver put on a spectacular show until it could no longer be sent to the central powers via neutral lands. Silver, which is a useful as well as a noble metal, volunteered recently to mount to parity, but the embargo gave it also a chill. Molybdenum soared until a synthetic substitute was discovered and later found unsatisfactory. Tungstic acid rose to the fever point, but a shipload of hucbnerite came through the canal and all deals were declared off and mines and mills closed down. Copper came into such tremendous demand, with reserves depleted, that owners of red metal mines discarded their last year's steam yachts and bought new models. Zinc went to the bat and made of Goodsprings one of the most prosperous camps in Nevada. Lead sold for three times its price at the beginning of the war.

The Bonanza could continue all down the line of the useful metals, particularly iron, and demonstrate that the vast deposits in this state—which has a greater variety of minerals than any other in the Union—only need development to enrich their owners. When the commerce of the world again flows through its accustomed channels and the rehabilitation of Europe is begun, there will be no danger of oversupply for many years and prices will be more uniform and upon even a higher plane than at present. Now is the time to get these properties in condition for heavy production.

## LET FUEL BE CONSERVED.

TONOPAH, on the verge of winter, is threatened with a serious shortage in fuel. This paper has strongly urged the leasing of the ore measures at Coaldale and the utilizing of empty trucks returning from Manhattan to bring in wood from the Toiyabe forest. It would make another suggestion, namely, that fuel be conserved by taking full advantage of the thermal units. In a town like Tonopah, where the structures are nearly all one story, probably 40 per cent of the heat is lost through the chimney. This could be avoided by the use of drums or by having the position of the stoves changed so that horizontal lengths of stovepipe could be placed and thus the radiating surface increased. Those who have not yet set up their stoves for the winter should take this matter into consideration.

## CLIPPED AND CREDITED.

Now and then cotton mistakes the sun for a silver dollar.—Atlanta Constitution.

Coal may "go down to history," but some of us won't be on hand to get a scuttle full.—Atlanta Constitution.

# BUY NOW A LIBERTY BOND

## Of The Second Liberty Loan

By so doing is a step toward victory and lasting peace. The Liberty Bond you buy will help shorten the war and may save the lives of many boys. You merely do your bit while lending your money to the Government, with the best security possible.

## The Nevada-California Power Company

## Weekly Sporting Events

(By Associated Press.)

SAN FRANCISCO, Cal., Oct. 23.—

Prospects for this year's football team at the University of Idaho, at Moscow, are considered by Coach Edmundson to be promising. Captain Tom Jackson already is back and "Bunt" Brashears, one of last year's standbys, will play an end.

Others of last year's players who are counted upon are Thompson, halfback; Barber, guard, and "Duddy" Gowan, end.

The schedule includes games with the University of Oregon at Eugene on October 27, Washington State college at Moscow November 3, Whitman college at Moscow November 10, and the University of Montana at Missoula on Thanksgiving day.

Among the promising candidates for the Whitman college football team at Walla Walla this fall is Robert Carver, a one-legged athlete, who starred on both football and basketball teams last year at Butler college, in Indiana. Carver lost his leg several years ago, due to an injury in football. He played center on the Butler college football team and forward on the basketball team. When Coach Borleske issued the call for football Carver was one of the first to respond. Leonard Carver, a brother, who was captain of the Ellensburg High school football team last year, also has registered at Whitman and is out for football.

The University of Wyoming, at Laramie, entered the football season this year with a 160-pound team under the direction of Coach J. C. Corbett, after a period of uncertainty pending decision of the Inter-Mountain conference to retain the freshman rule. The schedule includes the following games to be played: October 25, Utah Aggies, at Logan; October 27, open; November 10, Denver university, at Laramie; November 17, open; November 24, open; November 29, Creighton, at Omaha.

After the brilliant way in which

Willie Ritchie, the former light-weight pugilistic champion, heralded his return in the ring, his followers were not a little disappointed in the showing he made recently in his last four-round engagement against Marty Farrell, the New York boxer. Ritchie now weighs not far from the 150-pound mark and although Farrell outweighed the former champion by nearly ten pounds, the manner in which he punished Ritchie during the last two rounds has set the latter's friends to wondering whether or not Ritchie is through as far as the ring is concerned. Farrell landed a straight left almost at will, while Ritchie missed blow after blow.

## "SIMILIA SIMILIBUS CURANTUR" PROVES TRUE

(By Associated Press.)

SPOKANE, Wash., Oct. 23.—Warren McLean, aged 80 years, has returned to his former home in Anoka, Minn., to resume the thread of life, which he lost thirteen years ago when he was kicked by a horse. Recently he was struck by a falling tree on his homestead near Rose Lake, Idaho, where he had lived for many years, and lost memory of his life in the West. Finally he was struck by a train, and regained his recollection of early days.

## RANGE CONDITIONS EXCELLENT.

(By Associated Press.)

CARRIZOZO, N. M., Oct. 23.—Winter range conditions are expected to be excellent, cattlemen from the Lincoln county range who come here to do their trading predict. The fall rains have made the grass good in the mountain districts and cattle growers predict a record winter for grazing on the prairie and in the mountain valleys.

## RECOGNIZED FOR WOUNDS.

(By Associated Press.)

WASHINGTON, Oct. 23.—An army general order has authorized that distinctive ribbons be worn by Americans wounded in action. Additional ribbons will be worn for each later wound received.

## PLAN TO REMEDY NEW YORK'S SUGAR FAMINE

(By Associated Press.)

NEW YORK, Oct. 23.—With many more New York stores displaying "no sugar" signs, plans to insure an equitable distribution of the remaining supply available here were made at a meeting of sugar refiners, wholesalers and retailers. Commissioner of Markets Moskowitz fixed ten to eleven cents as the maximum retail price for sugar by agreement of those attending the meeting. Dealers charging more than this figure will be cut off from further supply.

Patrons of most retail dealers today were unable to secure more than a pound or two of sugar.

## MAKING BUSINESS OF PASTIME.

(By Associated Press.)

THE HAGUE, Netherlands, Oct. 23.—Butterfly catching has been converted from a schoolboy's amusement into a serious business at Solingen and Düsseldorf, in Western Germany. The communal authorities offered a premium of 1 pfennig apiece for every butterfly of the harmful varieties caught, with the result that the school children have already handed in 50,000 at Solingen and 150,000 at Düsseldorf. The method was adopted to combat the consequent caterpillar plague.

## Be Careful

how you leave matches around the house. Ten per cent of all fires in dwell-

ings are caused by matches. Be just as careful about placing your insurance. An insurance policy is a promise to pay in case you have a fire. Get the name of the strongest possible company on that promise.

Send us your name and we will mail you free a valuable booklet on "Fire Prevention" and a statement of the ample assets back of every policy in the Hartford Fire Insurance Company.

Southern Nevada Abstract Company, Agts
